# BELL KIT WITH STAND

## BSK2500 | 13082

Sheet music holder attaches to the bells, eliminating the need for a separate stand.

Easy set-up stand with threaded knob assembly.

Stand height adjusts from 25 - 38".

Included: 8" Drum practice pad, a pair of 5B wood tip drumsticks, and double-sided mallets.

Sturdy tripod base with rubber feet folds flat for storage and transport.

Carrying case comes with backpack straps, side and top handles, and wheels for easiest transportation. Interior features padded compartments for all components.

## FEATURES AND BENEFITS

Perfect for both practicing professionals and aspiring students, the BSK2500 features 32, 2.5 octave bells on a sturdy and portable stand, and comes complete with double-sided mallets -- one standard for live performance or recording and one attenuated for lower-volume practice. In addition, the included 8" practice drum pad and 5B wood tip drum sticks replicate the real drum feel and bounce but is quiet enough to be used almost anywhere. The carrying case holds all components and can be used with backpack straps, side or top handles, or hand-cart style, making transportation a snap.

32 Note Bell Set with 2.5 octave range (F5-C8). 32 Music note stickers are also included for easy reference option. Perfect for student practice!

## PRODUCT SPECIFICATIONS

Included	Bell set and tripod stand with sheet music holder, 8" drum practice pad, 5B wood tip drumsticks, double-sided mallets, and carry bag that holds everything.
Height Adjustment	25 - 38"
Bag Dimensions	28.5 x 16 x 5.5"

# COMPACT PEDAL BOARD

## GPB2000 | 12943

Angled for comfortable access. Non-slip rubber feet.

Convenient slots for cable management.

Includes custom gig bag with shoulder strap, interior pocket, and non-skid rubber feet.

Holds up to 5 standard size effect pedals.

## FEATURES AND BENEFITS

The GPB2000 Compact Pedal Board offers guitarists an ultra-compact and portable board, perfect for the minimalist pedal rig. Measuring 18.75" x 6", this angled pedal board has the room to organize up to 5 standard-size pedals in the ideal signal flow. Its aluminum construction is lightweight yet strong. Strategic cutouts provide a versatile cable management system, while the included adhesive hook & loop strips mean pedals can be securely arranged as desired. What's more, it all fits in its heavy duty gig-worthy bag with removable shoulder strap, and reinforced top and bottom.

The GPB2000 includes a high quality gig-ready bag. Custom fit for easy in/out, the padded bag protects pedals and settings during transport. An interior mesh pocket provides storage for cables, batteries, and other accessories.

## PRODUCT SPECIFICATIONS

Dimensions	18.75 x 6" surface
Construction	Aluminum
Included	Gig bag and adhesive hook & loop strips

# UTILITY STAND FOR PEDAL BOARD

## GPA1003 | 12868

## FEATURES AND BENEFITS

The GPA1003 Utility Stand for Pedal Board is a compact, streamlined and visually appealing approach to deploying an array of instruments and accessories normally found only in multiple accessories. A super-stable, 8 lb. cast iron base with six rubber feet slides conveniently underneath almost any pedal board. Its three M20 portals accommodate everything from additional mic stands to guitar hangers. The included rocker mic stand shaft comes with an oversized, knurled locking washer for precise, secure microphone placement.

Three M20 holes allow for modular setup of mic stands and/or guitar hangers. The GPA1003 is shown here with two GPA7155 Guitar Hangers, the GPB3000 Pedal Board and accompanying instruments and accessories.

## PRODUCT SPECIFICATIONS

Base Spread	17.9" x 10.35"
Height Adjustment	41" - 69"
Tilting Upper Mic Shaft	40°
Threading	5/8" - 27
Color	Black powder coat finish

# GUITAR HANGER FOR M20 BASES

## GPA7155 | 12881

Upper yoke folds flat for storage and travel.

Cat's eye knob easily adjusts the height from 24 - 38".

## FEATURES AND BENEFITS

This convenient guitar hanger attaches to any base stand with standard M20 threading (base must be able to support the weight of hanger and instrument). This means you can convert or re-purpose an extra microphone stand base, or add a guitar hanger to the GPA1003 Utility Stand for Pedal Board – The perfect all in one solution for tight spaces! What's more, the GPA7155's height easily adjusts with an ergonomic cat's-eye knob to accommodate for different sizes and styles of guitars and basses. Rubber end pieces keep your guitar from sliding off but won't harm your instrument's finish.

GPA7155 Shown above with MS9210 Heavy-Duty Low Profile Microphone Stand.

## PRODUCT SPECIFICATIONS

Height Adjustment	24" - 38"
Tubing	16mm/19mm

# GUITARIST STOOL & FOOTREST

## DT7500 | 12872

Sturdy yoke  
with protective  
EVA rubber and  
detachable latch.

Entire stool folds flat for  
storage and transport.

## FEATURES AND BENEFITS

This all-in-one guitar stool and instrument stand collapses for easy storage and transportation. Its cradle and sturdy yoke with detachable latch are covered by EVA rubber to protect your guitar or bass. Four non-slip rubber feet provide stability. Foam cushioned seat and footrest provide added comfort, and is especially helpful for longer gigs. No assembly required.

## PRODUCT SPECIFICATIONS

Stool Height	71"
Base Spread	22.5"
Seat Width	14.5"
Weight	7.7 lbs.
Weight Capacity	200 lbs.
Construction	Aluminum, EVA rubber on all contact points

# SIDE-LOADING GUITAR RACKS

## GS7563B & GS7563W | 12933, 12932

GS7563B  
Black finish

GS7563W  
Natural wood

### FEATURES AND BENEFITS

Elegant, protective and easily transportable, the GS7563 Side-Loading Guitar Rack combines visual appeal and practical functionality. The all-wood construction and EVA bumpers beautifully display and securely cradle six electric guitars or three acoustic guitars or, of course, various combinations thereof. And its 25.5"(L) x 14"(W) x 30.5"(H) floor dimensions fold smoothly to 34.5"(L) x 25.5"(W) x 4"(H), so your instruments fit beautifully on stage as well as in the store or home, while the rack itself saves precious space while in transit. Show anywhere, go anywhere with the On-Stage GS7563 guitar rack.

EVA rubber on all contact surfaces will protect your guitars.

### PRODUCT SPECIFICATIONS

Applications	Holds up to 6 electric guitars or 3 acoustic guitars, or any combination of
Dimensions	25.5"(L) x 14"(W) x 30.5"(H)
Folded Dimensions	34.5"(L) x 25.5"(W) x 4"(H)
Construction	Wood, metal and EVA rubber

# GUITAR CASE RACKS

## GS7565B & GS7565W

12984, 12985

GS7563B  
Black finish

GS7563W  
Natural wood

## FEATURES AND BENEFITS

With its solid ash, all hardwood construction, you can rest assured your guitar cases will be as beautifully and securely displayed as the instruments they hold. The 36"(L) x 13.5"(W) x 30"(H) deployed rack, available in natural or black finish, beautifully accommodates up to five acoustic or electric guitar cases in various combinations. An instrument is only as well-wrought and safe as the case that holds it. The GS7565 is foldable to 36"(L) x 34"(W) x 4"(H) for ease of transport. So make your case for ease of access and axe protection with the GS7565 guitar case display rack.

## PRODUCT SPECIFICATIONS

Applications	Holds up to five acoustic or electric guitar cases in various combinations

# 5-SPACE GUITAR HANGER

## GS8500B | 12990

48 x 4.5" Base board easily mounts to wall with 8 included mounting screws.

Hangers pivot 45° in either direction.

Displays up to 5 guitars/basses. Spacing between hangers is fully adjustable.

## FEATURES AND BENEFITS

Showcase and protect your guitars and basses with the On-Stage GS8500B 5-Space Guitar Hanger. Constructed with black anodized aluminum, the 48 x 4.5" base board mounts easily to a wall. The GS8500B includes 5 wall hangers, which extend 14.5" from the wall (five hangers can be used, or less if not needed). The wall hangers also feature a 45-degree swivel right and left to ensure optimal presentation and accessibility, while EVA bumpers protect your axes' headstock.

Yoke securely holds your guitars and protective EVA prevents damage to the guitars.

## PRODUCT SPECIFICATIONS

# GUITAR & UKULELE HUMIDIFIERS

GA150 & GA250 | 13015, 13011

GA150 - Guitar Humidifier

GA250 - Ukulele Humidifier

## FEATURES AND BENEFITS

Changes in humidity can wreak havoc with even the most sturdily-built instrument, shortening its life and compromising sonic fidelity, particularly on the road. The GA150 Guitar Humidifier and GA250 Ukulele Humidifier are a cost-effective investment in your instrument's looks, longevity and, of course, sound. These humidifiers can be stored conveniently and unobtrusively by suspending it between your strings in the sound hole. The sponge-style humidifiers dispense moisture evenly without ever contacting the instrument itself, ensuring it looks and sounds as good as the day you bought it.

## PRODUCT SPECIFICATIONS

Applications	Sound hole suspended humidifier; releases moisture evenly.
Color	Black

# PEDAL POWER PACK

PS801 | 12935

8-Plug Daisy Chain: Multi-Plug 8 Cable -  
9cm of wire between each plug. Plug size:  
5.5/2.1mm. All internal connections have  
same polarity.

1,300mA Power adapter  
easily powers 8 pedals.

Includes converter plugs to power virtually ANY 9V pedal, even Line 6 modeling pedals

- Two F6 Lines: 5.5/2.1mm DC plug (positive outside and negative inside), 6F22 9V battery button as female connector, used for connecting batteries to charge equipment.
- L6 Line: 5.5/2.5mm DC plug, 5.5/2.1mm female connector, internal connections have same polarity, used for charging equipment with different sockets.
- L3 Line: 3.5mm single channel plug, 5.5/2.1mm female connector, internal connections have same polarity, used for charging equipment with different sockets.
- Reverse Polarity Connector: 5.5/2.1mm DC plug, 5.5/2.1mm female connector, opposite polarity for charging equipment with different power polarity.

## FEATURES AND BENEFITS

This Pedal Power Pack is specially designed for guitar players who want to power as many as 8 pedals at the same time. It keeps your pedal board neat and only takes up one position on an outlet strip or wall outlet. Guaranteed to work with over 90% of the effects pedals on the market, the Pedal Power Pack also includes converter plugs for virtually any 9V pedal, even Line 6 modeling pedals.

5.5/2.1mm Plug size and all internal connections have same polarity.

## PRODUCT SPECIFICATIONS

AC Adapter Input	AC100-240V ~ 50/60Hz, Max: 0.6A

# TRIPOD MIC STAND WITH M20 BASE MS9750 | 13128

## FEATURES AND BENEFITS

This heavy-duty stand is built to last! Improved features include all metal parts and steel leg housing, making this stand unbreakable! The ergonomically designed and anodized machined aluminum center clutch combined with a patent-pending anti-rotational device on the lower shaft allows for true one-handed height adjustments.

The MS9750 features a threaded M20 base lug that is interchangeable with all On-Stage M20 modular components — bases, shafts, booms and more, putting the power of stage and studio customization in your hands.

## PRODUCT SPECIFICATIONS

Height Adjustment	39 - 69"
Base Spread	24"
Threading	5/8"-27 for mic clips and accessory parts; M20 threading at base.
Construction	All metal
Color	Black Powder Coat Finish

# THREE-SECTION MICROPHONE STAND

## MS9312 | 12996

## FEATURES AND BENEFITS

The MS9312 offers pro-level features, including a low profile 12" base with a 3 section shaft to provide flexibility for your height setting needs. Each Height adjustment clutch is designed for easy and secure gripping. The shaft is compatible with all standard 5/8"-27 threaded mic accessories. To aid with precise mic positioning, the upper shaft features an oversized knurled locking washer that keeps your mic clip exactly where desired. The shaft fastens to the base via a solid M20 steel lug and locking washer. This coarse threading provides an excellent combination of fast assembly and secure connection, while extending thread wear far beyond fine-thread designs. The shaft is interchangeable with other On-Stage M20 products which allow for use in many different applications.

## PRODUCT SPECIFICATIONS

Height Adjustment	39-97"
Base Diameter	12"
Base Weight	10 lbs.
Threading	5/8"-27 for mic clips and accessory parts; M20 threading at base.
Construction	Steel tubing and cast iron embossed base
Color	Black Powder Coat Finish

# PRO KICK DRUM MIC STAND

## MS9409 | 12999

## FEATURES AND BENEFITS

Comprised entirely of powder-coated aluminum alloy, these state-of-the-art stands provide both durability and flexibility. The sleek, embossed base features six vibration-dampening, floor-protecting pads, while the shaft incorporates an internal clutch washer for smooth, secure height adjustments from 9" - 13". The all-metal telescopic boom features a removable counterweight for dual mic functionality.

## PRODUCT SPECIFICATIONS

Height Adjustment	9" - 13"
Base Diameter	10"
Base Weight	6 lbs.
Total Stand Weight	8.65 lbs.
Boom Length Adjust	21.5" - 36"
Threading	5/8"-27 for mic clips and accessory parts; M20 threading at base.
Construction	All metal

# PRO KICK DRUM MIC STAND

MS9417 | 12998

Removable counterweight leaves 5/8" -27 threading to attach 2nd mic if desired.

5/8"-27 solid steel threaded lug with locking washer.

Each Height adjustment clutch is designed for easy and secure gripping, providing height adjustment from 17" to 28.5".

Solid steel machined lug with M20 threading provides an excellent combination of fast assembly and secure connection, while extending thread wear far beyond fine-thread designs.

6" Diameter base with 5 rubber feet for added stability.

## FEATURES AND BENEFITS

Comprised entirely of powder-coated aluminum alloy, these state-of-the-art stands provide both durability and flexibility. The sleek, embossed base features six vibration-tamping, floor-protecting pads, while the shaft incorporates an internal clutch washer for smooth, secure height adjustments from 17 - 28.5". The all-metal teleboom features a removable counterweight for dual mic functionality.

## PRODUCT SPECIFICATIONS

Height Adjustment	17 - 28.5"
Base Diameter	10"
Base Weight	6 lbs.
Total Stand Weight	9.25 lbs.
Boom Length Adjust	21.5 - 36"
Threading	5/8"-27 for mic clips and accessory parts; M20 threading at base.
Construction	All metal
Color	Black Powder Coat Finish

# DESKTOP ROCKER-LUG MIC STAND

## DS8100 | 12919

5/8"-27 solid steel threaded lug with locking washer.

Rocker-Lug tilts the shaft 40° off of the vertical. No boom arm needed!

6" Diameter base with 5 rubber feet for added stability.

## FEATURES AND BENEFITS

Patent-pending Rocker-Lug allows this desktop mic stand to tilt up to a 40° angle, making a boom arm unnecessary for most uses. Tilts and stays in position with no knobs to tighten. The straight vertical height is 12". Threaded to fit most mic clips. Convenience and ease-of-use make the Desktop Rocker-Lug Mic Stand ideal for home recording; podcasts; DJs; stage performances; and kick drum, amps, and pianos. Floor models are also available.

Our new Rocker-Lug eliminates the need for an added boom arm, yet keeps your setup neat and compact when space is tight.

## PRODUCT SPECIFICATIONS

Base Diameter	6"
Base Weight	3 lbs.
Height	12"
Angle Adjustment	40°
Threading	5/8"-27

# TELE-BOOM WITH DUAL MIC CAPABILITY

## MSA9800 | 13057

5/8"-27 solid steel threaded lug with locking washer.

Removable counterweight

Boom length adjusts from 21.5" to 36".

## FEATURES AND BENEFITS

At its core, the MSA9800 Microphone Tele-boom with Dual Mic Capability is a pro-level boom arm with solid steel construction, secure metal knobs and black powder-coated finish. The length adjusts from 21.5 - 36" and the cats-eye knob easily adjusts angle positions. The MSA9800's unique functionality allows you the option to remove the counterweight and add a second mic to the opposing 5/8"-27 threaded end, providing space-saving versatility on the road or in the studio.

Reconfigure your approach to tele-boom utility with the MSA9800 Tele-Boom with Dual Mic Capability by On-Stage.

## PRODUCT SPECIFICATIONS

Boom Length Adjust	21.5 - 36"
Weight	1.85 lbs.
Threading	5/8" - 27

# PROFESSIONAL NO SPIN MIC BOOM

## MSA9900 | 13098

5/8"-27 solid steel threaded lug with locking washer.

Telescoping boom for extended reach and precise mic placement. No knobs to strip, lose or break. Length adjusts from 21 - 35".

Diecast counterweight/boom clutch provides stable and easy operation with any microphone in any position.

Precision machined S-style adjustment knob allows for 180° of smooth tilt adjustments that will lock/release with just 1/8-turn.

Boom clutch features independent threading which allows the boom arm to be added/removed from a stand without doing a "baton twirl". Fits standard 5/8"-27 threading.

## FEATURES AND BENEFITS

A sleek new microphone boom arm with improved, but familiar functions. Any musician will recognize the single S-style adjustment knob. Our S-style adjustment knob is diecast constructed and precision fit to provide 180° of smooth tilt adjustment. It's a familiar and ergonomic action, but because the clutches are precision machined parts, it only takes 1/8-turn to lock or release the angle. Smooth rotation and a secure hold mean you can focus on the music instead of the stand. Also unique to this boom arm is that the clutch threading is independent of the boom clutch. This means that the boom arm can be added/removed from a stand without doing a "baton twirl". Not only is this easier and more convenient, it virtually eliminates the common problem of stripped threading.

Tele-boom adjusts without knobs presenting a clean line of sight. No knobs to strip, lose or break!

## PRODUCT SPECIFICATIONS

Boom Length Adjust	21 - 35"
Weight	1.85 lbs.
Threading	5/8" - 27

# MICROPHONE BOOM POLE

## MBP8000 | 93668

Included carry bag with adjustable shoulder strap

## FEATURES AND BENEFITS

The MBP8000 Handheld Microphone Boom Pole is ideal for broadcasting, newscasting, film/TV/video production, school plays/productions, and more field applications. Our easy-to-carry Boom Pole is machined from sturdy and lightweight aluminum for secure mounting of your microphone. Four telescopic rods quickly adjust the length of the pole using a simple and efficient twist-and-lock mechanism. An internal cable management system is included along with a convenient carry bag.

Standard 5/8"-27 threads with solid brass male end converts to 3/8"-16 with no additional gear. Internal coiled mic cable included.

## PRODUCT SPECIFICATIONS

Length Adjust	35" - 10 feet
Connectors	Black E-coat
Conductors	(9 x 0.14) x2 BC, OD 5mm, AWG24
Shielding	32 x 0.8 BC spiral shielding + Aluminum foil

# DUAL MIC AMP BAR

## MY650 | 13089

— 9" Horizontal bar can be placed between two amps or between an amp and the floor.

— 6.5" Vertical bar has a lug that slides up/down 6 - 12" for precise mic placement.

— Two 6" mic extension bars swivel 90° for precise mic placement.

All lugs are solid steel with standard 5/8"-27 threading.

— Folds for easy positioning, storage and transport.

## FEATURES AND BENEFITS

Constructed of sturdy, black powder-coated steel, the On-Stage MY650 Dual Mic Amp Bar offers quick, convenient set-up and precise mic placement for virtually any amplifier. The 9" long bar features EVA and slides smoothly underneath or atop the amp, while the mic adapter arm rises or descends from 6" to 12" and deploys dual 5/8"-27 threaded rotating adapters for secure, exact mic positioning. Get your amp mics off the floor and into a sharper-looking, better sounding place with the On-Stage MY650.

Get your amp mics off the floor and into a sharper-looking, better sounding place with the On-Stage MY650.

## PRODUCT SPECIFICATIONS

# QUICK-RELEASE STEREO MIC BAR

## MY800 | 13025

One included extension riser allows you to position one mic over the other.

Four included quick-release connectors with standard 5/8" - 27 threading. Additional mounts can be purchased separately to mic up to 6 mics.

Standard 5/8" - 27 adapter mounts to most standard microphone stands. Ball-joint adapter allows for quick and precise adjustments.

## FEATURES AND BENEFITS

Weighing in at only .65 pounds, the MY800 Quick-Release Stereo Mic Bar opens a world of recording and performing possibilities. Comprised of aluminum, steel and glass-filled nylon -- each selected for their precise application -- the MY800 features a 5/8" - 27 adapter with ball joint mounts which allow for horizontal or vertical set-up. Unlike competing bars, the MY800 can hold up to 6 microphones at a time. The bar itself comes with four quick-release 5/8" - 27 connectors, as well as an extension riser for mic-over-mic, variable axis pick-up.

Over 10 configurations facilitate a wide variety of miking techniques including X-Y, O.R.T.F., N.O.S., DIN and wide A/B (see additional photos at bottom left). And, thanks to its modular design, the MY800 accepts additional, separately sold UM88 Adapters for even more versatility. The MY800 can be un-assembled for compact transport and storage.

## PRODUCT SPECIFICATIONS

Application	Stereo miking up to 6 microphones
Bar Length	8.875"
Weight	0.65 lbs.
Threading	5/8" - 27
Construction	Steel, aluminum, glass-filled nylon
Color	Black Powder Coat Finish

# HEX-BASE STUDIO MONITOR STANDS

## SMS6600-P | 13091

## FEATURES AND BENEFITS

Professional Studio Monitor Stands adjust from 36.5 - 54" in height to customize your listening area. The stands feature a heavy duty stamped Hex-Base, which provides a stable foundation and can hold up to 90 lbs. per stand. Rubber feet and EVA rubber on the platform add stability and shock absorption. Six leveling carpet spikes can be installed for extra stability when using the stands on a carpet.

The SMS6600-P features a threaded M20 base lug that is interchangeable with all On-Stage M20 modular components — bases, shafts, booms and more, putting the power of stage and studio customization in your hands.

## PRODUCT SPECIFICATIONS

Height Adjustment	36.5" - 54"

# ACOUSTICAL WALL TREATMENT

AP3500 | 12971

1" Dense foam absorbs mid-to-high frequency reflections and stabilizes frequencies.

Hardened beveled edge keeps sides from denting.

## FEATURES AND BENEFITS

On-Stage Acoustic Panels are designed to reduce reflections and flutter echo in listening areas such as spaces for recording or rehearsal, music rooms, control rooms, and home theaters. Using these acoustic panels to minimize reflections from a room's hard surfaces helps keep sound enjoyable and clear, especially important for speech or vocals, and in public spaces like auditoriums and houses of worship.

## PRODUCT SPECIFICATIONS

Dimensions	2' x 2' x 1"
Weight	2.75 lbs. (panel only) .65 hanger with screws
Material	High density, class A fire rated acoustical fiberglass
Color	Black
Included	(1) panel, (2) wall mount space clips, (6) anchor screws

# PRO STUDIO HEADPHONES

## WH4500 | 12970

Adjustable head strap provides a non-slip fit.

10' Wired AUX cable detaches for easy storage and transportation.

## FEATURES AND BENEFITS

Designed for home or studio recording, On-Stage WH4500 headphones offer unparalleled sonic clarity and features normally found only in more expensive sets. Complete with 10' detachable cord, the closed-ear, foam-padded WH4500 comfortably cancels ambient noise, while the gold-plated 1/8" plug (and included 1/4" adapter) ensures maximum signal integrity. Collapsible and easily transported with the included nylon travel bag, the WH4500 provides 15K-28K, full range frequency response, 40mm driver 38 ohm impedance, 99 decibel SPL sensitivity and 1,600mw power capacity at 1kHz for seamless system integration.

A convenient carrying bag, 10' detachable AUX cable, and a gold-plated 1/4" adapter is included.

## PRODUCT SPECIFICATIONS

# GRIP-ON UNIVERSAL DEVICE HOLDER WITH U-MOUNT MOUNTING POST

TCM1900 | 12944

Four Grip-On holders hold most handheld devices between 2.5 - 9".

UM-01 Pull Back Connector, Mounting Post and Soft Presentation Grip.

u-mount Mounting Bar accepts round tubing between 11-19mm.

**New for 2017** - Extra-Large Grip added which can hold devices between 7 - 9" wide (not shown below).

Small Grip shown with phone

Medium Grip shown with tablet

Large Grip shown with iPad

## FEATURES AND BENEFITS

Experience the functionality and protection of u-mount for all of your handheld electronic devices. The TCM1900 Universal Mount includes four adjustable Grip-On mounts to fit popular tablets and cell phones sized from 2.5" to 9" wide. Constructed from a rugged plastic, each mount utilizes a spring-loaded clamp with rubber grips to secure your device. A 360° Ball Joint provides rotation and tilt adjustment, while the Pull Back Release Sleeve makes removing the holder from the Mounting Bar a breeze. The Mounting Post can be removed from the Mounting Bar for use as a comfortable handle during presentations, soundchecks, video chats and more. Mounting Bar handles round tubing 11- 19mm in diameter.

Our award-winning packaging is eye-catching and describes all of the product features.

# GRIP-ON UNIVERSAL DEVICE HOLDER WITH U-MOUNT ROUND CLAMP

TCM1901 | 12945

Four Grip-On holders hold most handheld devices between 2.5 - 9".

U-mount Round Clamp accepts round tubing between 21-30mm.

UM-01 Pull Back Connector, Mounting Post and Prop-Up.

**New for 2017** - Extra-Large Grip added which can hold devices between 7 - 9" wide (not shown below).

Small Grip shown with phone

Medium Grip shown with tablet

Large Grip shown with iPad

## FEATURES AND BENEFITS

Experience the functionality and protection of u-mount for all of your handheld electronic devices. The TCM1901 Universal Mount includes four adjustable Grip-On mounts to fit popular tablets and cell phones sized from 2.5" to 9" wide. Constructed from a rugged plastic, each mount utilizes a spring-loaded clamp with rubber grips to secure your device. A 360° Ball Joint provides rotation and tilt adjustment, while the Pull Back Release Sleeve makes removing the holder from the Mounting Bar a breeze. The mounting clamp handles round tubing 21-30mm in diameter. We've even included a Prop-Up insert that converts the quick release into a slip-free tabletop monopod.

Our award-winning packaging is eye-catching and describes all of the product features.
