

Instrument Cables

New Packaging! New Pricing! New Products

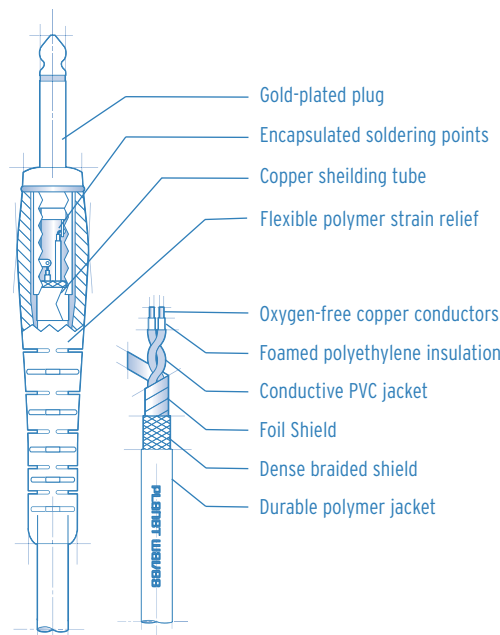

Custom PRO Series Instrument Cables

Developed for the most discriminating musician, Planet Waves offers the ultimate built-to-last cable line, while accurately transferring all the subtle details of your playing. Custom Pro Series cables feature Amphenol plugs with gold plated contacts and the "jaws" cable retention system for unparalleled signal transfer and strain relief. Using the latest in cable manufacturing technology, the Custom Pro Series line features a network of heavy-gauged, ultra-pure, oxygen-free copper conductors for precise signal reproduction.

Custom Series Instrument Cables

- > Gold-plated plugs ensure positive connection into standard 1/4" (6.35mm) jacks.
- > Special double-insulated/double-shielded cable design provides cleanest signal available while eliminating hum and triboelectric noise.
- > Exclusive Planet Waves overmolded connectors provide extra protection with unmatched strain relief.

Instrument Cables

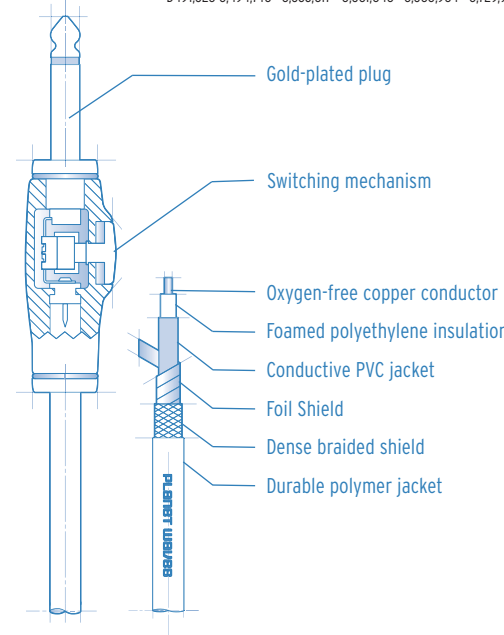

New Packaging! New Pricing! New Products

The Circuit Breaker™ Cable

The Planet Waves Circuit Breaker™ has a built-in mute switch to save your equipment from loud pops and squeals while changing guitars with a live amp. When the button is pushed, the cable mutes while remaining plugged into your guitar, making on-stage guitar changes a snap, and eliminating any chance of sound bursts. Once the cable is muted, remove the cable from the guitar being used and plug the cable into the next instrument. Press the button again to reactivate the cable signal. It's that easy!!!

Planet Waves cables and adapters may be protected by one or more of the following U.S. patents: D491,526 6,494,746 · 6,533,617 · 6,561,846 · 6,568,964 · 6,729,912 · D496,909 · D510,071 and foreign rights

IN = OUT™ SIGNAL TRANSPARENCY

Nothing should come between your instrument and amplifier – that includes your cable! Ordinary instrument cables can adversely affect or pre-equalize your tone, robbing you of harmonic content and sonic detail. Planet Waves Cables utilize the latest technologies to ensure low capacitance and impenetrable shielding. Lower cable capacitance allows your instrument's brilliance, presence and character to be transmitted to the amp ensuring that the signal going into the cable comes out of the cable with the utmost transparency.

Classic Series Instrument Cables

- > Patented nickel-plated plugs with 8 compression springs ensure positive connection into standard 1/4" (6.35 mm) jacks.
- > Special coaxial cable design provides extra-clean signal and low capacitance.
- > Molded connectors provide extra protection over ordinary plugs.

Cable Station™ Solderless System

The Cable Station™

The Cable Station allows musicians to make their own custom-length instrument or RCA cables without the mess and hassle of soldering. The cables are simply made by pushing the plugs firmly onto the cable and tightening a screw on the side of the plug. The cable is marked every foot for precise measuring, and with a variety of plug styles, the options are limitless: effects racks, PA systems, guitar pedal boards, DJ cases, studio applications, home theater – you name it. Mix and match instrument, RCA in-line and right-angle plugs at custom lengths for your specific use.

Cable Station™ Plugs & Cutters

Pedal Board Cable Kit

The Planet Waves Pedal Board Cable Kit is the ultimate solution for custom-wiring your pedal board or rack gear. Inferior patch cables can cause signal loss and undesirable coloration to your sound. Planet Waves plugs and cables are specially designed to provide the most accurate and reliable reproduction of your sound from guitar to amp and all points in between. Includes 10' of cable, 10 right-angle plugs and a mini cable cutter.

- > Solderless plugs connect to cable in seconds, creating exact, required lengths easily!
- > 24k gold-plated plugs for improved signal flow and corrosion resistance.
- > Double-insulated cable employs braided copper shield and metalized polyester foil inner shield for 100% shielding coverage.

Item #	Description	Retail
PW-GPKIT-10	Pedal Board Cable Kit	\$119.99

New! Modular Snake System

The Planet Waves Modular Snake System makes it easy to customize the cable configuration to your specific needs. The snakes feature interchangeable break-outs for easy and flexible wiring options utilizing industry standard analog pinouts. It's as easy as choosing the core cable length and the proper break-outs for the situation. Planet Waves snakes are made with our proprietary multi-pair snake cable, featuring oxygen-free copper conductors and 100% shielding in a low noise, low signal loss construction. Additionally, the snakes feature Amphenol gold plated connectors for optimal signal transference, corrosion resistance and strain relief.

Bulk Connectors

No crimping, no soldering, no stripping!
Planet Waves' solderless connectors are fast, easy, and reusable. Simply back the gold screw out of the plug with a flat-head screwdriver, push the Planet Waves High-Definition bulk cable in with a firm twisting motion, and set the screw until it will turn no further. It's that easy!

All Planet Waves solderless connectors include:

- > Black chrome finish with 24k gold-plated ends.
- > Extra black, red, blue, green, and yellow o-rings in each pack. Orange and white rings also included in RCA connector packs.
- > Extra gold screws inside each pack.
- > Instructions inside each pack.

RCA plugs protected by US Patent #s 6,568,964; 6,729,912, and foreign rights.

Bulk Cables

Planet Waves' full-bandwidth cable is manufactured in the USA to 75 ohm High-Definition standards. Designed specifically for use with Planet Waves' solderless plugs, the cable is double-shielded, sweep tested to 3GHz at 100 feet, and is CL2 and CM rated. Dual and triple coax features color-coded dielectric. All Planet Waves bulk cable boxes and spools include a mini cable cutter.

Do-It-Yourself "DIY" Cable Kits

The Planet Waves DIY Kits are perfect for even the most novice consumer as this solderless interconnect system is so easy to assemble anyone can do it. It is as simple as cutting the cable to length, applying the appropriate connector & fastening the set screw to secure the connection. There is even a tester provided so that you can test every cable to ensure proper termination. It may sound too good to be true but, it really is as easy Cut, Twist & Screw!

Features & Benefits

- Simple 3-Step Assembly Process – Cut, Twist & Screw
- Features Planet Waves' In = Out™ technology for pure signal transparency
- Do-It-Yourself system yields pre-fabricated look, feel & performance
- Custom length cables provide a neat & clean look - No more coiling excess cable
- Completely repeatable assembly – Reuse connectors for new applications or devices
- Take the guess work out of connecting complex A/V systems – 1 Cable for all applications
- High quality product meets even the most demanding HD performance standards
- So versatile you can make any cable necessary for Audio/Video applications
- Complimentary products available should your home theater require more device hook-ups

Primary Applications:

- HD Component Video (Red/Green/Blue)
- Composite Video (Yellow)
- Digital Audio (Orange)
- L/R Analog Audio (Red/White)
- Satellite/Cable RF
- Subwoofer

 - 1 Screwdriver

Instrument Care

Step 1: RESTORE - Deep-Cleaning Cream Polish

Planet Waves' new RESTORE deep-cleaning cream polish is a rich formula designed to cut through the toughest grime. Safe on all common guitar finishes, RESTORE polishes out swirl marks and even minor scratches, reanimating your finish like never before. For best results, follow with Planet Waves PROTECT pure liquid Carnauba wax.

Item #	Description	Retail
PW-PL-01	Planet Waves Restore Polish	\$9.99

Step 2: PROTECT - Pure Liquid Carnauba Wax

Planet Waves' new PROTECT is a natural protectant and sealer combining premium-quality, #1 yellow Brazilian Carnauba and advanced chemistry to produce a distinct radiance with quick and easy application. Pour a small amount on a dry polishing cloth, and work thoroughly into surface with a circular motion. After wax dries to a haze, remove with a clean polishing cloth. Finish with Planet Waves' SHINE spray cleaner & maintainer.

Item #	Description	Retail
PW-PL-02	Planet Waves Protect Wax	\$9.99

Step 3: SHINE - Spray Cleaner & Maintainer

Planet Waves' new SHINE spray cleaner and maintainer keeps your finish looking like new every day. SHINE erases dust, fingerprints, and minor imperfections, while color enhancers bring out your finish's beauty, leaving it with the ultimate wet look. Spray a small amount on a dry Planet Waves polishing cloth daily, or as needed, and buff thoroughly into surface with a circular motion.

Item #	Description	Retail
PW-PL-03	Planet Waves Shine Spray	\$9.99

Express Packs - Polish Packettes

Planet Waves' new Express Packs rewrite the book on how polish is sold. Each packette contains a one-time use quantity of each polish in the 3-step detailing system: RESTORE liquid cream polish in the first tear-off cell, PROTECT liquid Carnauba wax in the second cell, and in the third cell, a soft polishing towelette is pre-soaked with SHINE instant spray cleaner. Every order of 25 units ships in a color countertop display for fast impulse sales at the register. Best of all, this new packette format keeps customers coming back!

Item #	Description	Retail
PW-PK	"Express Packs" Polish Packettes	\$3.99

Polishing Cloths & Papers

a. Untreated Polish Cloth

Planet Waves polishing cloths are made from high-quality double napped cotton flannel, which picks up dust and dirt more effectively than ordinary polishing cloths, and lasts longer.

Item #	Retail
PWPC2	\$4.99

b. Pre-treated Polish Cloth

Planet Waves pre-treated polishing cloths are produced with cleaner built into the cloth so there is no need for extra polish. Plus, the cloths are made from double napped cotton flannel.

Humidipak® Automatic Humidity Control System

Planet Waves, in collaboration with Humidipak®, brings you the first two-way humidity control that maintains a constant 45% relative humidity level. The patented Planet Waves Humidipak® completely eliminates all the guesswork and anxiety of maintaining your instrument's proper humidity level. No more guessing if or when to refill the humidifier and worrying about drips or mess. No more manual adjustments based on seasonal changes, geographic locations, temperature, or other factors. Unlike all refillable humidifiers, the Humidipak® provides true "two-way" purified humidity control since it adds or depletes moisture only as needed to maintain 45% RH – the ideal climate for wooden instruments.

System includes:
 1 Headstock pouch
 1 Sound hole pouch
 3 Humidipak® packettes

Simply place the Humidipak® Packettes with the included pouches into your instrument case, close the lid, and that's it!

Humidity & Temperature Sensor

The Planet Waves Humidity & Temperature Sensor (HTS) will help maintain the proper climatic conditions to avoid damage. The Humidity & Temperature Sensor is a precision-designed hygrometer that digitally indicates accurate relative humidity levels ranging from low (under 20%) to 99%. Temperature is displayed in either Fahrenheit or Centigrade ranging from -32°F to 122°F. The patent-pending design includes a programmable set point that can set the minimum humidity desired. When humidity is below the set point, an icon will indicate it is necessary to use a humidifier. The high and low memory can also indicate the highest and lowest temperature and humidity conditions your instrument has been exposed to, as well as the date and time of that high and low, since the last reset.

Item #	Description	Retail

New! Tru-Strobe™ Tuner

True-Strobe tuners are extremely accurate pitch measurement devices. The slightest difference between the input frequency and the ideal frequency accumulates over time, and appears as movement on the circular LED interface. Once the movement stops, you are perfectly in tune.

The Planet Waves Tru-Strobe™ Tuner is accurate within + or - 0.1 of a cent! Perfect for setting intonation, recording and live performance where being in tune is of the utmost importance. The tuner's heavy-duty construction includes a built-in microphone and input jacks for tuning acoustic, as well as electronic instruments. Enjoy the next level of tuning accuracy!

- > Accurate to +/- 0.1 of a cent
- > True strobe tuning, not a simulation
- > Heavy-duty die-cast construction
- > Convenient tabletop design

US Patent Pending

- > **Sweep Mode:** The note played appears on the center display while red LEDs sweep left or right to indicate whether you are flat or sharp.
- > **Full-range pitch pipe function.**
- > **Intuitive, patent-pending, 12-segment rotary LED display.**
- > **Timer and stopwatch functions.**
- > **Sensitive condenser microphone.**
- > **Separate mute and volume controls.**
- > **In Strobe Mode:** The note played appears on the center display while red LEDs chase around counterclockwise if you are flat and clockwise if you are sharp. They slow down as you tune and stop when you are in tune.
- > **Copy pitch** feature automatically calibrates tuner to any instrument.
- > **Ultra-wide** user-defined frequency adjust mode - 415Hz to 466Hz.
- > **Full-featured metronome** with musical woodblock tone and programmable beats per measure, beat subdivisions and tap tempo features.

S.O.S. Tuner with Strobe-On-String Tuning Technology

The revolutionary Planet Waves S.O.S. Tuners* pulse two out-of-phase LED light beams directly onto the vibrating string. When the string is out of tune, the two lights will visually dance on the string being tuned. As you approach in-tune status, the movement slows down and eventually stops when you are perfectly in tune. This revolutionary visual tuning system enables precision tuning in silent or noisy environments, without the need for audible sound or sensing of any kind.

- > Auto power-off to conserve battery life.
- > Runs on 1 CR1620 battery (included).
- > Multi-language instruction booklet included.

*Available for 6-string guitar in standard tuning and 4-, 5-, and 6-string bass.

- > **Precisely tune** in dark or noisy environments.
- > **Ergonomic pick-sized design** allows you to pluck the string and shine the LED beam easily.
- > **Light-based tuning** requires no audible input or complex sensing circuitry.

S.O.S. Tuner Quick-Start:

1. Select string to be tuned with Data Wheel.
2. Pluck the string.
3. Shine the LEDs on the string near the 12th fret.
4. Tune the string until the movement of the light projected on the string slows to a stop.
5. When the movement of the light stops, you're in tune!

S.O.S. comes in packers of 5, and cases of 50.

The S.O.S. Guitar Tuner is silver, the Bass Tuner is red.

Universal Chromatic Tuner

The Universal Chromatic Tuner is a working musician's tuner with a twist. A patent-pending fold-out tuning bracket hangs the tuner from the sound hole of an acoustic guitar for hands-free tuning. With a wide range of accuracy and a built-in mic, the Universal Chromatic Tuner is a great choice for tuning anything from a 5-string bass all the way up to a mandolin—it works great with band and orchestral, wind, brass, and stringed instruments as well.

- > Fold-out, rubberized, patented tuning bracket improves tuning performance, particularly in noisy surroundings.
- > Dual-mode operation for auto or manual tuning pitches.
- > LCD and LED displays for tuning in both well-lit and dark environments.
- > A440 calibrated. May be user-calibrated to any pitch from A435 to A445.
- > Requires one 9V battery (not included).

Capos

NS Dual-Action Capo™

The product of an ongoing collaboration between famed product designer, Ned Steinberger and D'Addario, the patented Planet Waves Dual-Action Capo is not your ordinary trigger-type capo. Compound action reduces the force necessary to open and close the capo. It also eliminates side-pulling the strings out of tune, which is prevalent on other trigger-type capos. Aircraft-quality aluminum construction adds virtually no weight to the guitar's neck when in use and the capo can be clamped on the head-stock when idle. Simply adjust the tactile micrometer tension control so there is just enough tension to eliminate string buzzing and enjoy repeatable, in-tune performance at every fret.

Attention Dealers! Save \$\$\$
Order in packer or case quantities

Capos are sold in packers of 10.

Acoustic/Electric

- > Incredibly easy one-handed operation made possible through patented, compound-action design.
- > Micrometer tension adjustment allows for setting the perfect tension for your instrument; assures buzz-free, in-tune performance at every fret.
- > Designed to fit most 6- and 12-string guitar necks with radiused fingerboards.

Item #	Description	Retail
PW-CP-05	NS Dual-Action Capo	\$29.99

NS Capo™

The NS Capo is the product of an ongoing collaboration between famed product designer, Ned Steinberger and D'Addario & Company. It employs a sleek, ultra-light design for fast and accurate one-hand positioning on the guitar's neck. Just turn the smooth, tactile dial to eliminate the string buzzing and enjoy perfect, in-tune performance. Lightweight aluminum adds virtually no weight to the guitar's neck when in use.

Acoustic/Electric

Acoustic/Electric

Classical

- > Ultra-light aerospace-grade aluminum.
- > One-hand operation.
- > Fast micrometer screw assures perfect pressure for buzz-free, in-tune performance at every fret.
- > A patent-pending Ned Steinberger design.
- > Designed for 6- or 12-string guitars.
- > Also available for classical guitar.

Provides buzz-free, even pressure across the neck.

Low-profile design does not intrude on playing.

Tension knob allows precise adjustment of pressure

Vented Leather Strap Collection

Planet Waves introduces the new Vented Leather Strap Collection—five unique, comfortable, and breathable leather straps with decorative designs perforated through the leather! The Collection offers guitarists a choice of aged leather, unique “whitewashed” leather, and soft suede. These straps breathe unlike any other leather strap as a result of the built-in, decorative vents along the strap’s length. Fashion and function!

- › Genuine, premium leather and suede.
- › “Vented” styles—designs are cut out of leather for fashionable and comfortable performance.
- › 2.5" wide straps.
- › Adjustable in length from: 44.5" to 53".

Planet Lock Straps

New! A result of years of research, the patented design of Planet Lock fits virtually any guitar and stays locked in place until you release the side pin. Unlike ordinary strap lock systems, the Planet Lock is designed to fit securely on your guitar’s existing end pin. No need to change end pins or worry about whether the lock will stay in place. The Planet Lock is safe, secure, and easy to use.

- 60% smaller strap ends with improved locking mechanism
- Now available in Planet Waves 5 best-selling strap patterns

50PLA10	Stars and Stripes	\$32.99

Polypropylene Planet Lock

New!

- Features the new and improved Planet Lock strap ends
- Made from heavy duty Polypropylene
- Available in black only

50PLA01 50mm Poly Pro Planet Lock - black \$21.99

Dare Strap

Planet Waves has teamed up with product designer Troy Dare to bring you the patented **Dare Strap**. Unlike conventional straps, the Patented **Dare Strap** allows you to spread the weight of your instrument over both shoulders instead of only one. Great for heavy instruments and players with back/neck conditions.

50DARE000 Dare Strap \$24.99
*Patent #5,868,293

Leather End Polypropylene Guitar Straps

Our polypropylene straps are made from extra-heavy-duty polypropylene webbing and will last much longer than ordinary polypropylene straps.

New! PWS108	white \$6.99

Acoustic Quick Release

The Acoustic Guitar Strap**

This patented strap is designed specifically for acoustic guitars and has a built-in, easily detachable, quick-release cord for the headstock. Installing and removing your acoustic guitar strap is a snap. Loop the cord under the strings and through itself, then simply click the quick-release buckle into place; no knots to tie or untie, no need to worry about the cord coming undone while you play. The Planet Waves Acoustic Guitar strap is safe, simple, and allows you to play your acoustic guitar with peace of mind.

44PA000 - black \$24.99

*Protected by US Patent # 6,032,339
**Protected by US Patent # 5,868,293

Quick-Release™ System

The Acoustic Guitar Strap Quick-Release System* takes just seconds to set up, it won't come loose while playing, and the extra length of the cord keeps the guitar strap's webbing from interfering with the guitarist's hand when playing near the headstock. Best of all, just squeeze the quick-release and you're free: no knots!

DGS15 Acoustic Guitar Strap Quick-Release System \$5.99

*Patent #5,868,293

THE DARKSIDE

Detune, crank your amp, and shred. The Dark Side woven strap collection is designed with the heavy player in mind. All of The Dark Side straps have a built-in pick pocket and come with a free pick. Leather ends only.

WEST COAST

Grab a towel and head for the beach. The West Coast Strap Collection captures the spirit of California style. From SoCal punk-rock and surf-inspired designs to custom chopper pinstripes, the West Coast Collection includes six straps that are sure to make waves. Leather ends only.

DID YOU KNOW?

These straps meet or exceed the following strength criteria:

NYLON WEBBING:
1000 lbs

INJECTION MOLDED RINGS:
100 lbs

LEATHER ENDS:
80 lbs

Retro classics

The Retro Classics woven strap collection is inspired by the fashions and styles of three eras of rock and roll--the '50s, '60s, and '70s. From funky '70s-inspired blocks, to paisley patterns that bring back memories of feedback and festivals, there's a Retro Classic for everyone's collection. All Retro Classics have a built-in pick pocket and come with a free pick. Leather ends only.

Save \$\$ when you buy these collections in assortments of 10 (one of each style). Assortments ship to your door pre-packed. Take the guess-work out of buying straps!

WORLD TOUR

Take a trip around the world with the World Tour woven strap collection. Comprised of ten designs celebrating cultures from around the globe, this collection is your passport to some of Planet Waves' most intricate designs and colorful fabrics. All World Tour straps have a built-in pick pocket and come with a free pick. Leather ends only.

Joe Satriani Signature Collection

Joe Satriani Woven Strap Collection

From the ever popular Joe Satriani Signature strap collection comes 3 new designs from the pen of the master himself. The JS Collection was designed in partnership with legendary guitarist Joe Satriani. The original art on the straps was either pulled directly from Joe's personal sketch books or inspired by his guitars. Known worldwide as a guitar innovator with 13 Grammy® nominations and with over 10 million copies of his albums & DVDs sold around the world, Joe has achieved huge success in his more than 20-year career. His love for character sketching has yielded volumes of original artwork, available to the public for the first time ever in JS Series straps and picks from Planet Waves.
